

## **JOB DESCRIPTION**

Terracon Ecotech Pvt. Ltd. is an ecology based environment solutions provider based in Mumbai. We are India's first and only ecology based advisory and turnkey services Company, offering services to corporates, governments and civil society in the areas of ecology, sustainability and environment management, & natural resource management.

We are looking for a passionate and enthusiastic candidate to fit in the role. Key responsibilities would include:

Job Title: Analyst/ Associate - Nature-based Climate Solutions with experience of 1-2 years or more

Location: Santacruz, Mumbai, Maharashtra

Engagement type: Full Time

Key Responsibilities:

- Ensuring strategic direction of project operations, day to day management and delivery of the Project's components in close consultation with Project Support Team.
- Preparation of project details and programme documents, preparation of compelling proposals and monitors the project work plans, project effectiveness and achievement of results
- Prepare inception reports, work plans and impact reports for the project
- Improve/establish communication and coordination mechanisms and procedures amongst the various stakeholders.
- Support development of projects that generate carbon offsets (carbon credits) in accordance with international carbon standards (such as Gold Standard, Verra VCS etc.).
- Assess carbon potential for new projects and ideas.
- Provide support in monitoring and issuance of carbon credits.

Desired Qualification:

- Master's Degree in Life Sciences/ Applied Sciences/ Social Sciences/ Sustainability.
- Practical knowledge of Nature-based climate solutions and community-based interventions.
- Experience in working with and developing partnerships with private sector, NGOs, development actors, and government authorities in sub-sectors relevant to livelihood programming.
- Experience in field of sustainability and carbon offset projects.
- PDD writing, validation, monitoring, verification, and issuance cycle for carbon projects.
- Basic knowledge of international carbon standards, Clean Development Mechanism (CDM), VCS (Verra), Gold Standard for the Global Goals or developments in the international carbon market and environmental policy and Sustainable Development Goals (SDGs).
- Willing to work on field for data collection, interest in social aspects and stakeholder engagement with strong communication and collaboration skills.
- Proven writing skills.

Salary: As per the standards (negotiable)
